INTRODUCING FRONT LOAD WASHERS WITH **POWER STEAM**[®]

Gentle + tough cleaning for all your clothes with our unique **2x Power Dual Steam Cycle** that's more hygienic than handwashing!

- 1x** At the start of the wash cycle, steam eases out dirt and gets rid of hidden germs.
- 2x** The wash cycle ends with gentle waves of steam softening the fabric's fibres.

99.99% germ-free, soft clothes

CRADLEWASH[®]

Do you hand wash your delicates?

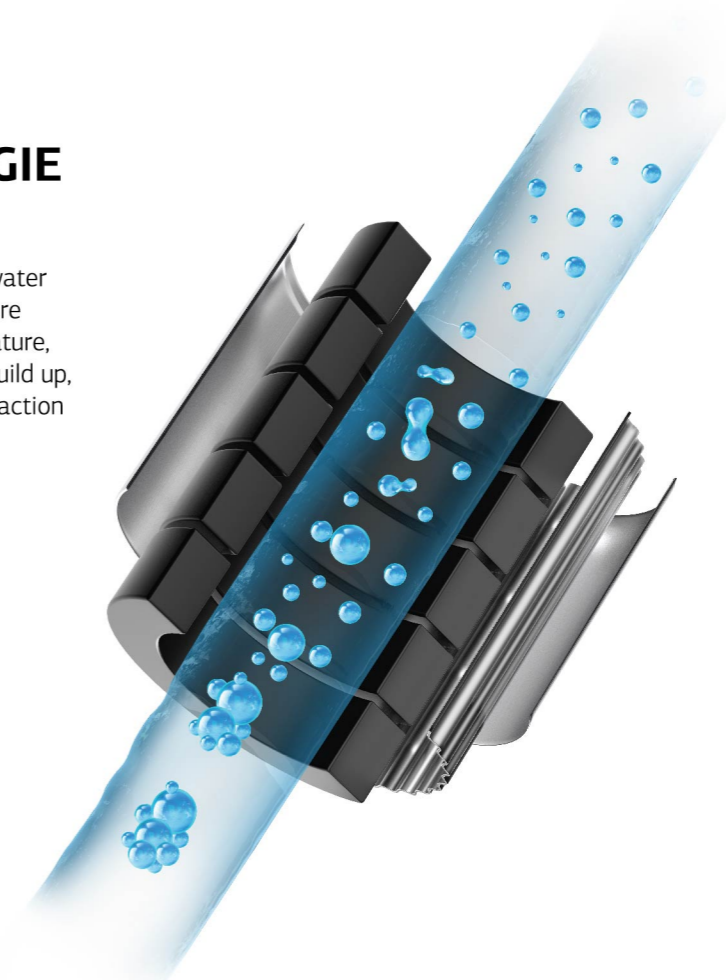

Go on! Put them in the machine, it's safer than hand washing. Cherish your specials with CradleWash[®] —India's first wash program for delicates.

AQUA ENERGIE

Are there chalky marks on your dark fabrics?

They are caused by hard water and can be easily taken care of by the Aqua Energie feature, which filters out calcium build up, enabling better detergent action and preventing fading.

3D/4D WASH

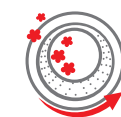

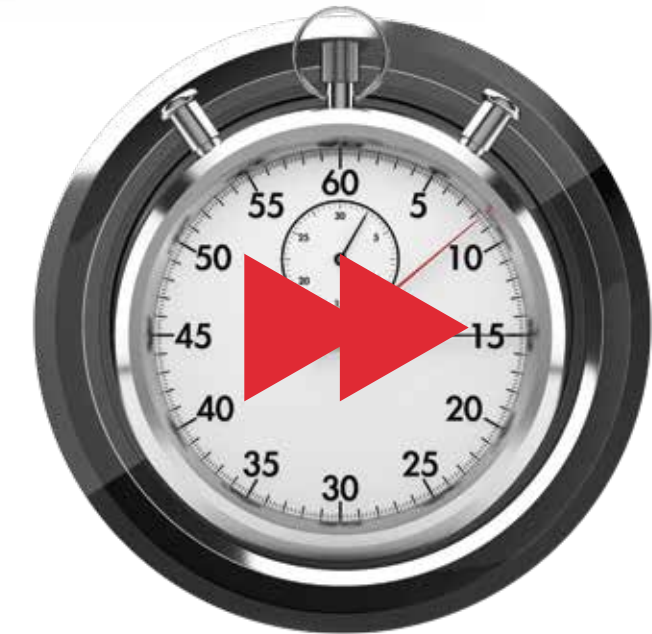

Is the detergent not mixing well with water?

Water from 3 different directions showers your fabrics and ensures proper dissolving of detergent. And if you want it faster, our 4D Wash does the same thing even quicker!

TIME SAVER

Clothes not too dirty? A shirt you wore for a little while? Gym clothes?

Use this program—it reduces wash time by 45%, protects your fabrics from over washing and saves water, power, detergent and time.

INTRODUCING TOP LOAD WASHERS WITH
POWER STEAM[®]

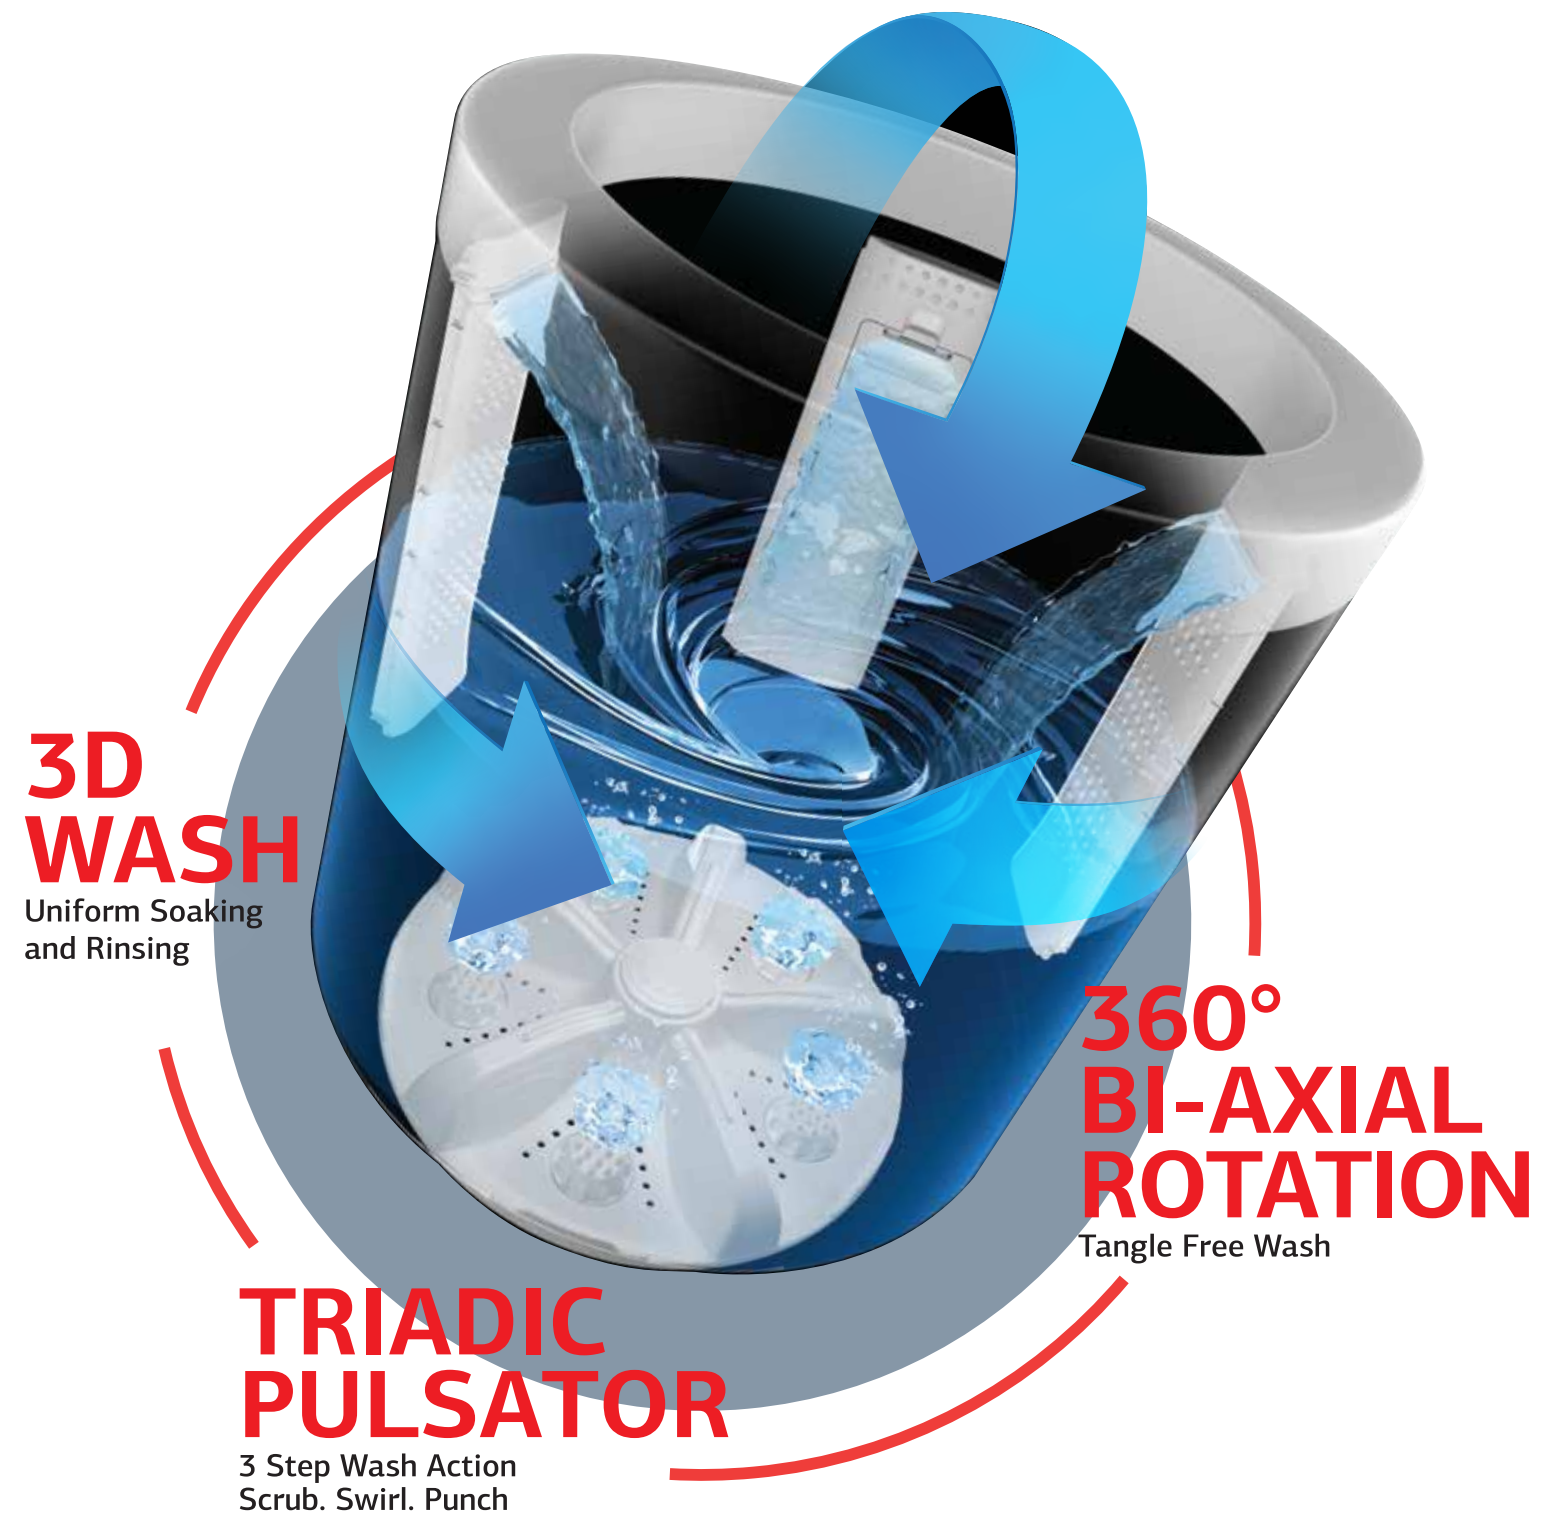

99.99% germ-free
Hot wash up to 60°C

with
STAINFIGHTER[™]
Fights 44 types of tough stains

SUPERIOR WASH ACTION

A GOOD WASH IS A RESULT OF 3 THINGS—
SOAKING, WASHING & RINSING

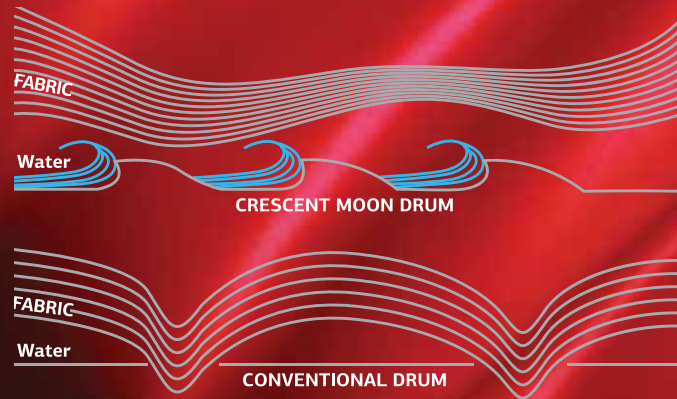

3D WASH
Uniform Soaking
and Rinsing

360° BI-AXIAL ROTATION
Tangle Free Wash

TRIADIC PULSATOR
3 Step Wash Action
Scrub. Swirl. Punch

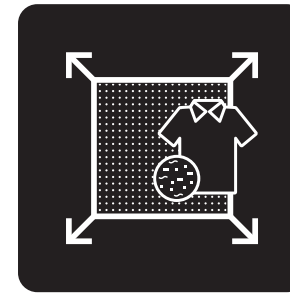

CRESCENT MOON DRUM

Creates a gentle water cushion during the wash cycle, absorbing the washing machine action and preventing fabric damage.

BIG DRUM

A larger drum ensures clothes move freely, preventing tangling and wrinkling.

EXTRA LARGE LINT FILTER

3X times better than the competition!

We deliver a lint-free wash. The filter also prevents lint from being drained into the water stream.

INBUILT WHEELS

No trolley needed!

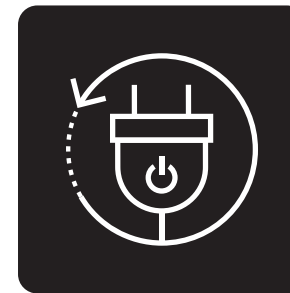

The built-in wheels help in ease of mobility—just tilt the machine and move it!

LOW PRESSURE WATER FILL

Don't let water pressure stress you out!

IFB's lower water pressure fill technology allows the machine to run even if the water pressure is low.

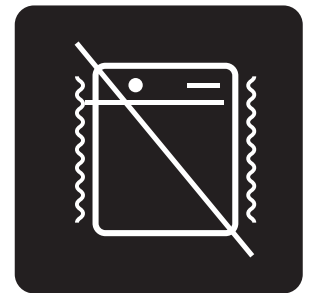

AUTO RESTART

Power cuts?

No problem, as the IFB machine will resume working exactly from where it stopped.

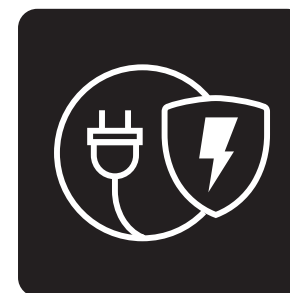

FUNCTIONAL, CONVENIENT AND RELIABLE AT HEART

AUTO IMBALANCE CONTROL

A machine that balances itself!

If the clothes in the drum are not balanced, the sensor detects it and rearranges them till the load is balanced.

VOLTAGE PROTECTION

No shocks for you!

If the voltage goes beyond 270 V or below 150 V the machine goes into standby mode, resuming as soon as the voltage is within safe operating limits.

SMART SENSE

A machine that does the math

Automatically detects the fabric of the load and adjusts the time and water settings. Get an optimum wash and save!

AUTO DIAGNOSIS

A quick fix for non-stop washing

If there is a fault, the error code flashes on the screen. Check the error code on the IFB App for easy troubleshooting. If the issue is not fixed, register a service call directly from the app.

FABRIC CARE

Indulgence is what your garments deserve

Our complete range of fabric care pamper your laundry. Catch leaking colours or add a fragrance. Whether it's whites, brights or silks, we have something to care for them all.

No escape for stains

Fabo and Fabo Stain Pen rid your laundry of every possible type of stain. Whether it's the toughest mud, egg, chocolate or even spilt wine—you can deal with it all, even on the go!

MACHINE CARE

Lime out, sparkle in

Hard water is tough on your machine. This makes it and means you use more detergent and power to wash. IFB essentials guarantee that appliances live longer while performing better.
